

Vehicle stock statistics with limited information – dataset (TPERAP002c, TPERAP010c)

General provisions

The vehicle stock statistics dataset contains technical vehicle data and vehicle owner and holder data included in the Transport Register. If the person in question has a valid information disclosure prohibition, the data covered by the prohibition cannot be disclosed.

Stock statistics data is used for purposes such as market information products.

Data deliveries and prices

The TPERAP002c dataset will be delivered to the partner through a broker service four times a year and the TPERAP010c dataset monthly, excluding the months in which the TPERAP002c dataset is delivered. The broker service is provided by Traficom's system provider.

Traficom will invoice dataset-specific fees for the data deliveries once a month according to the price list valid at the time (market statistics services).

The broker service provider will invoice the costs arising from the brokerage agreement.

Terms and conditions of use

The service is subject to terms of use. The partner must have a valid agreement and a data access authorisation with Traficom and a brokerage agreement with the broker service provider. Contact Traficom for instructions on matters concerning brokerage agreement.

Further information

Changes related to data deliveries are requested from and processed by Traficom.

Market information services are also provided by Traficom's partners, whose addresses are available at www.traficom.fi
