

Data on registration transactions and changes to insurances – dataset (TPERAT013)

General provisions

The dataset contains data on vehicle registration transactions and data on changes made to insurances. The dataset contains vehicle and personal information. If the person in question has a valid information disclosure prohibition, the data covered by the prohibition cannot be disclosed. The data is used to produce market statistics.

Data deliveries and prices

The data will be delivered to Traficom's partner daily through a broker service. The broker service is provided by Traficom's system supplier.

Traficom will invoice dataset-specific fees according to the price list valid at the time (batch extractions from registers). The broker service provider will invoice the costs arising from the brokerage agreement.

Terms and conditions of use

The service is subject to terms of use. The partner must have a valid agreement and a data access authorisation with Traficom and a brokerage agreement with the broker service provider. Contact Traficom for instructions on matters concerning brokerage agreement.

Further information

Traficom's partners produce tailored market statistics according to the customer's requests. The partners' addresses are available at www.traficom.fi
