

The logo features the text "6G Finland" in a bold, white, 3D sans-serif font. The "6G" is contained within a blue square with a white border. The background of the entire slide is a satellite view of the Earth with a glowing blue network of lines and nodes overlaid, representing global connectivity.

# 6G Finland

**6G Finland** is a national network of excellence aiming at  
advancing Finland's wireless technology leadership

**[6GFinland.fi](https://6GFinland.fi)**

## Mission

**To intensify 6G cooperation among Finnish stakeholders, to focus more on key priorities, and to increase relevant international collaboration and partnerships**

**Vision  
leadership**

**R&D  
effectiveness**

**6G favorable  
R&D  
environment**

**Building Finland's position as a global leader in...**

**6G vision and  
standardization**

**Research and  
Development**

**Education and  
training**

**International  
visibility**

**R&D  
Environment**

**Innovations  
and  
monetization**

**...across technology, business, and society.**

## Organization, operating model

### ***Founding Members:***

- **Aalto University**
- **University of Helsinki**
- **University of Oulu**
- **University of Tampere**
- **LUT University**
- **Nokia Bell Labs**
- **VTT**
- **Finnish Defence Research Agency**
- **Business Oulu**
- **Oulu University of Applied Sciences**

### ***Organization***

#### **1. Principle**

- A network of key partners from which key personnel are selected.

#### **2. Legal form**

- Operated with mandate from key partners, not having its own legal form in the initial phase.

#### **3. Management**

- Operations have a national board, i.e., management team consisting of members appointed by key partners and expert members. The board has nominated roles as Co-Chairs, a Secretariat, as well as other necessary representatives.

### ***Operating model***

#### **1. Principle**

- Management team-led work, followed by action and commitment. The items on the agenda of the Management Team are delivered through the Management Team and the Secretariat.

#### **2. Approach**

- Objectives, actions and projects focus on 1) the roadmap, 2) technology and business, and 3) partnerships. Targets, schedule and resources are agreed upon for all activities and projects in the 6G Finland board.

### ***Funding***

#### **1. Principle**

- Operations are funded by members, unless otherwise agreed.

## Core 5G and Beyond MOOC

**from the  
University of Helsinki  
in collaboration with  
FITECH**

MOOC Course, open for all  
Aim to give introduction to 5G and beyond including new applications  
Increase awareness, skill levels, attract students to telecom and application topics  
2 credit point course, can be started at any time  
Provides pointers to followup courses in Finland  
More information to be available: [www.mooc.fi](http://www.mooc.fi)
