

Changes to certificates required with CEMT permits – EURO IV certificates no longer issued as from 1 January 2022

Starting from 1 January 2022, there will be changes to the information included in the ECMT certificates that are required with CEMT permits and issued by vehicle importers and inspection stations. From the same date onwards, EURO IV certificates will no longer be issued. However, certificates issued by 31 December 2021 will remain in force.

EURO IV CEMT permits will be issued for 2022 as usual.

The CEMT system aims at promoting cleaner, less polluting emission classes (EURO V and VI). Because of this aim, the EURO IV class will be phased out in two stages: EURO IV certificates will no longer be issued as from 1 January 2022 and the EURO IV emission class is expected to be abolished as from 1 January 2023.
