## **STATEMENT**

We hereby declare that :

EV-97 Eurostar, model SLW MTOW 600kg is not affected by bulletin EV97-014b

In the bulletin EV97-014b Evektor offers installation of barrier between the pilot/copilot pedals, where inner / middle pedals are very close.

Model SLW use pedals from EASA CS-LSA certified aircraft SportStar RTC, where pedals have bigger distance between pilot/copilot with compare to other/previous Eurostar models.

Model Eurostar SLW 600kg

Previous/other model Eurostar

Best regards,
